- **What are the rules surrounding Assessment Tasks?**
- **What are N Determinations?**
- **What are Disability Provisions**
- **Faculty Assessment Schedules**
- **Assessment Calendar**
- **Illness and Misadventure appeal form**

Gloucester High School

Year 10 Assessment Policy

What are Assessment Tasks?

Assessment Tasks are used to measure total student achievement at the end of a course in Year 10. They cover core syllabus content and outcomes, but do not include information about student attitudes, behaviour and conduct. Student assessment marks are gathered during Year 10 through a variety of Assessment Tasks, and are used to allocate grades based on performance descriptors, which are then recorded on each student's Record of School Achievement (ROSA). The descriptors appear below.

A	-	Excellent Achievement
B	-	High Achievement
C	-	Substantial Achievement
D	-	Satisfactory Achievement
E	-	Elementary Achievement

Mathematics Grades vary from those above as they contain other, intermediate levels of performance.

What are the Rules surrounding Assessment Tasks?

- Students must be notified by the teacher that an Assessment Task is approaching. Written notification of the task must be given to students two weeks before the task date. This notification should include:
 - A clear outline of what the task expects the student to complete. This may take the form of Marking Criteria or a Rubric;
 - The percentage weighting of the task;
 - The date on which the task is due (in the case of assignments) or the task is to be conducted (in the case of tests, performances, etc.)
- Assessment Tasks must be completed on or by the due date. If a student is sick or away on the due date, an explanatory note from home, Illness-Misadventure appeal form **and** a Doctor's Certificate or other documentation (where appropriate) must be sent to the teacher as soon as possible. Phone contact with the school would also be appreciated.
- Students who have missed a task will need to complete it, or an alternative task, immediately upon their return to school (see teacher before school). Where the assessment task is an examination, and the student is unable to return to school the following day to complete the examination, an estimate based on other evidence will be awarded.
- Unexplained lateness of a task will incur a zero mark for that task
- Non-serious attempts at Assessment Tasks may incur a zero mark for that task
- Malpractice (such as cheating, plagiarism, or use of the work of others) will incur a zero mark for that task.

What are N Determinations?

N Determination in a subject means that a student has not satisfactorily met the requirements of that subject. N Determinations in core subjects (English, Mathematics, Science, History, Geography and PD/H/PE) will put into jeopardy a student's continuation into Years 11 and 12. An N Determination will take place if a student fails to:

- Follow the course developed by the Board of Studies;
- Apply themselves with diligence and sustained effort to set tasks and experiences; or
- Achieve some or all of the course outcomes
- Submit or attempt Assessment Tasks to a total greater than 50% weighting

Students who have not met these requirements will be issued with an N Determination Warning Letter, advising them of the steps needed to “redeem” the situation, and the time period in which to do so. Failure to redeem an Assessment Task means that that task’s weighting does not contribute to a student’s final Assessment mark, and will contribute to the possibility of an N Determination for that subject.

Subject Assessment Schedules

In the pages following, you will find the Assessment Schedules for each subject. These schedules outline the type of task, the weighting for each task and the due date for the task (ie the date assignments are due to be handed in, or when tests or practical examinations are to be conducted).

As formal Assessment Tasks are important indicators of student achievement, it is critical that significant time at home be allocated to their completion or preparation. A well-organised study plan is essential, and needs to be supported by hard work and commitment!

Mrs Trudi Edman
Principal

March 2022

ASSESSMENT - DISABILITY PROVISIONS

Students with disability/individual learning needs work towards syllabus outcomes identified through the collaborative curriculum planning process. They can be given a range of opportunities to demonstrate achievement of these outcomes.

Class teachers can ensure that assessment activities are accessible to students with disability. This is a requirement under the *Disability Standards for Education 2005*. Some students with disability need adjustments to assessment activities to enable access to the task. They also need an equitable opportunity to demonstrate what they know and can do. In some cases alternative assessment strategies may be needed.

Decisions are made by Classroom teacher in consultation with the Learning Support Team to offer adjustments to students with disability in school-based assessment tasks, including examinations.

Adjustments enable a student with disability to access syllabus outcomes and content on the same basis as their peers. They are intended to provide equitable opportunities for students with disability rather than give an advantage. The types of adjustments made will vary according to the needs of the individual student.

Evidence (documentation can be provided by, but is not limited to, a Doctor, a Psychologist, an Occupational Therapist or a Speech Pathologist) of the individual student need **must be provided** to the Learning and Support Coordinator **to support all Disability Provisions applications**.

Teachers/Learning Support Coordinator/Year Adviser may talk with the parent/carer to identify possible adjustments for the student and decide on and **approve any adjustments** for school-based assessment tasks that will allow the student to demonstrate what they know.

Some students may require:

- adjustments to the assessment process
- adjustments to the assessment activities
- alternative formats for responses

Please refer to the following website for further information.

<https://www.educationstandards.nsw.edu.au/wps/portal/nesa/k-10/diversity-in-learning/special-education/assessment-and-reporting>

Parents are advised to contact the school if they feel their child is eligible for Disability Provisions and would like to discuss their child's individual needs.

Mrs Margo Cameron
Learning and Support Coordinator

ASSESSMENT SUMMARY NOTE

Students should note that every endeavour has been made to limit the number of tasks in any one week. Sometimes ongoing tasks will be due in a week when other tasks are also due.

STUDENTS MUST PLAN TO ENSURE THAT TASKS ARE COMPLETED AHEAD OF DUE DATES RATHER THAN LEAVING UNTIL A WEEK WHEN OTHER TASKS ARE DUE.

ILLNESS-MISADVENTURE APPEAL FORM

PROCEDURES FOR ILLNESS-MISADVENTURE

An illness-misadventure form is used when an assessment task is:

- not submitted on time
- submitted incomplete
- due and student is absent the day prior
- during extra-ordinary circumstances

Where a student experiences a misadventure, she/he should obtain an Illness-Misadventure Appeal form from within the Assessment Schedule Booklet, school office or from [Gloucester High School website](#). This must be done on the same day where possible or the next day of attendance including the submission of the task and/or negotiation with Class Teacher and Head Teacher when the examination or practical task will be undertaken after the misadventure.

Completing the Illness/Misadventure Appeal

PART A: This section is to be completed by the student. Reasons for the Illness-Misadventure appeal must be documented in this section.

PART B: Relevant documentation (e.g. doctor's certificate, statutory declaration, other) must be attached. This section is signed by the student and parent/carer. Please note that the doctor's certificate must state the condition that will affect their performance in completing the task.

It is the student's responsibility to complete the Illness-Misadventure Appeal and return it to the Head Teacher within **three school days** of the due date of the task. Late appeals may be considered but only in the event of exceptional circumstances. Students cannot submit an appeal on the basis of:

- difficulties in preparation or loss of preparation time / technology fault
- alleged deficiencies in teaching
- long-term illness such as glandular fever unless they are suffering a flare-up of the condition during the examination or assessment period
- misreading the examination timetable
- misreading assessment task or examination instructions
- other commitments such as holidays, participation in entertainment, work or sporting events, or attendance at examinations conducted by other institutions or organisations. Special consideration for changes to the scheduled date must be made in writing, addressed to the Principal and well in advance of the event.
- illness once the assessment paper is opened during the reading time, or after the examination commences.

PART C: Recommendations for the appeal are then completed by the Head Teacher (within policy guidelines). The Head Teacher may:

- i) recommend to uphold the appeal
- ii) recommend to dismiss the appeal
- iii) recommend to impose a penalty.

The appeal is then presented at the Appeals committee for final approval.

PART D: The Appeals Committee shall be convened by the Deputy Principal.

The committee will:

- i) uphold the appeal
 - ii) dismiss the appeal
 - iii) impose a penalty.
- The committee should communicate the outcome of the appeal to the student. This could include an extension of time, a substitute task or an estimated mark.
 - All documents related to the appeal should be placed in the student's file.
